For the FOURTH year running, here's our Concise Courses 2016 Information Security Conferences List.

We've been running this list now for four years and we have become the Web's #1 Resource for listing Information Security Conferences (Cybersecurity) and events. Most of these events are in the US but many are in Europe, Asia and the Middle East. As ever, this is a 'work in progress' so we will be adding to this list as the year rolls out.

If your InfoSec Conference or Event is missing, please contact us (https://my.leadpages.net/leadbox/147cf3f73f72a2%3A141671246b46dc/5663838603051008/) or add a comment below and we will add your event right-away! * Don't forget to add any early-bird offers.

If you find our list helpful will you please credit us with a link to our site? We'd *really* appreciate it – thanks!
