Write shortest code which print on the console Christmas tree with ASCII art (picture may be different from the picture above).

The rules:

You can code the solution in any programming language during the weekend and have to submit it to info@olimex.com latest on Sunday September 28th.

On Monday we will upload the solutions on GitHub <https://github.com/OLIMEX/WPC> (<https://github.com/OLIMEX/WPC>)

You can play with your real name or with nick if you want to be anonymous, we will not disclosure your personal info if you do not want to.
