

SECURE 2015

19th Conference on Telecommunications and IT Security
 Date: October 14-15, 2015
 Venue: Copernicus Science Centre, Warszawa

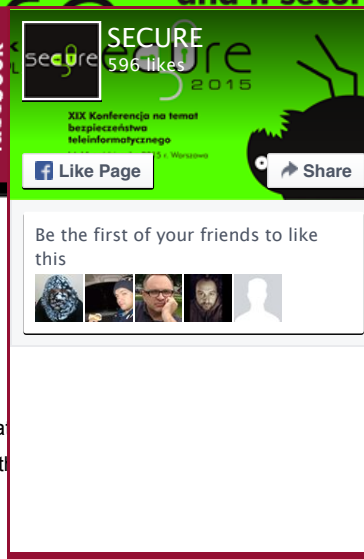

SECURE is a conference dedicated entirely to IT security and addressed to administrative and technical practitioners in this field. It is recognized as the meeting place for experts involved in telecommunications and IT systems security.

SECURE 2015:

- Leading international experts
- Applied solutions
- Hot topics and important trends

SECURE's unique feature is the organisers' commitment to providing participants with reliable information about current topics in IT security. A high professional level of the talks is ensured by CERT Polska during the paper selection process.

Conference presents state-of-the-art solutions, analysis of the current threats, latest trends in ICT security as well as important legal issues. Participants have an unique opportunity to gain the latest knowledge, improve their qualifications and exchange experience with experts.
