## What is ComputerCraft?

ComputerCraft is a mod created for Minecraft (http://minecraft.net) by dan200 (http://www.computercraft.info/dan200/) that adds Comp Modems, Turtles and more! ComputerCraft's Computers and Turtles are programmed with the easy-to-learn Lua programming language (http://www.lua.org/). You can use Redstone, RedPower (http://eloraam.com/) or even MineFactory Reloaded (http://www.minecraftforum.net/topic/1629898-151152-powercrystals-mods-15-updates-are-here-rednet-logic-is-here-100-upvotes/#mfr) ak devices for the best experience.

	Examp	les

Some examples of the many powerful uses of ComputerCraft are:

Password locks for doors without complicated redstone	Making a user control system for computer use	
The use of Turtles to mine	Piston doors	
Using a Computer to control your TNT Cannons	Make a Turtle Lumberjack	
Using Computers as a jukebox or even as a DJ	Turtle powered Cobble Generator	
Computer-Powered Adventure Maps	Using a Computer outfitted with Minepedia for Minecraft h	
Epic games and RPGs	Make a turtle dance	
	and much, much more - so why
